Built For Activewear Buyers

Yinshan supports activewear brands with design refinement, fabric route planning, sample correction, private-label production and custom packaging.

Design Development

Silhouette editing, fit adjustment, color story and logo placement planning.

Performance Fabric

Quick-dry stretch knits, recycled polyamide route, breathable mesh and soft handfeel.

Logo And Print

Heat-transfer logo, silicone print, reflective mark, woven label and artwork sampling.

Production Control

Pattern grading, sample review, bulk sewing, inline QC, final inspection and packing.

Material And Customization Platform

A buyer-ready platform for activewear programs: function, comfort, logo execution, eco fabric route and scalable production details.

Quick-Dry Stretch

Polyamide-spandex and polyester-spandex knits with breathable, lightweight handfeel for training and studio use.

Recycled Route

Recycled nylon or recycled polyester options can be developed by buyer target price, color and performance needs.

Comfort Finish

Soft brushed handfeel, smooth waistband, anti-chafe seam and optional removable cup construction.

Logo Execution

Heat transfer, silicone print, reflective logo, woven label, neck print, hangtag and custom bag.

Pattern And Fit

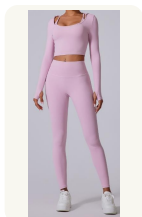

Compression level, rise height, inseam, cutout position, cup pocket, strap length and grading can be adjusted.

Eco Extension

Organic cotton can be used for matching lifestyle tops, warm-up layers or casual active capsule extensions.
